ABOUT US

CHCT is a self-managed healthcare real estate investment trust (“REIT”) that owns a diverse portfolio of properties including medical office buildings, acute inpatient behavioral facilities, inpatient rehabilitation facilities, physician clinics, specialty centers, behavioral specialty facilities, and surgical centers and hospitals across the United States, primarily outside of urban centers. As a result of favorable demographic trends, increases in healthcare spending, and the shift in the delivery of healthcare services to community-based facilities, we believe our properties are essential for healthcare providers to serve their local markets.

REPORTING DEFINITIONS

Acute Inpatient Behavioral Facilities (AIB)

Behavioral inpatient acute care facilities are healthcare facilities that provide a range of clinical services for mental health and/or substance abuse diagnoses on an inpatient basis. Behavioral health services provided may include assessment, treatment, individual medical evaluation and management (including medication management), individual and group therapy, behavioral health counseling, family therapy and psychological testing for recipients of all ages.

AFFO, Adjusted for Acquisitions

AFFO, Adjusted for Acquisitions, adjusts AFFO to show the impact of the real estate properties acquired in the period as if they had been acquired on the first day of the reporting period, using the expected returns and in-place leases at the time of the acquisition. The Company believes that AFFO, Adjusted for Acquisitions, is useful because it allows investors, analysts and Company management visibility into the impact on the Company's results of operations in future reporting periods resulting from its current period acquisitions.

Annualized Rent

Base rent for the current month multiplied by 12.

Behavioral Specialty Facilities (BSF)

Behavioral specialty facilities are healthcare facilities that provide a range of clinical services for mental health and/or substance abuse diagnoses. Behavioral health services provided may include assessment, treatment, individual medical evaluation and management (including medication management), individual and group therapy, behavioral health counseling, family therapy and psychological testing for recipients of all ages.

EBITDAre and Adjusted EBITDAre

The Company uses the National Association of Real Estate Investment Trusts, Inc. ("NAREIT") definition of EBITDAre which is net income plus interest expense, income tax expense, and depreciation and amortization, plus losses or minus gains on the disposition of depreciable property, including losses/gains on change of control, plus impairment write-downs of depreciable property and of investments in unconsolidated affiliates caused by a decrease in value of depreciable property in the affiliate, plus or minus adjustments to reflect the entity's share of EBITDAre of unconsolidated affiliates and consolidated affiliates with non-controlling interest. The Company also presents Adjusted EBITDAre which is EBITDAre before non-cash stock-based compensation amortization.

We consider EBITDAre and Adjusted EBITDAre important measures because they provide additional information to allow management, investors, and our current and potential creditors to evaluate and compare our core operating results and our ability to service debt.

Funds from Operations (FFO) and Adjusted Funds from Operations (AFFO)

Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. However, since real estate values have historically risen or fallen with market conditions, many industry investors deem presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. For that reason, the Company considers funds from operations ("FFO") and adjusted funds from operations ("AFFO") to be appropriate measures of operating performance of an equity real estate investment trust ("REIT"). In particular, the Company believes that AFFO is useful because it allows investors, analysts and Company management to compare the Company's operating performance to the operating performance of other real estate companies and between periods on a consistent basis without having to account for differences caused by unanticipated items and other events.

REPORTING DEFINITIONS (continued)

The Company uses the NAREIT definition of FFO. FFO is an operating performance measure adopted by NAREIT. NAREIT defines FFO as the most commonly accepted and reported measure of a REIT's operating performance equal to net income (calculated in accordance with GAAP), excluding gains or losses from the sale of certain real estate assets, gains and losses from change in control, impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity, plus depreciation and amortization related to real estate properties, and after adjustments for unconsolidated partnerships and joint ventures. NAREIT also provides REITs with an option to exclude gains, losses and impairments of assets that are incidental to the main business of the REIT from the calculation of FFO. The Company has included AFFO which it has defined as FFO, excluding certain expenses related to closing costs of properties acquired accounted for as business combinations and mortgages funded, excluding straight-line rent and the amortization of stock-based compensation, and including or excluding other non-cash items from time to time. AFFO presented herein may not be comparable to similar measures presented by other real estate companies due to the fact that not all real estate companies use the same definition.

FFO and AFFO should not be considered as alternatives to net income (determined in accordance with GAAP) as indicators of the Company's financial performance or as alternatives to cash flow from operating activities (determined in accordance with GAAP) as measures of the Company's liquidity, nor are they necessarily indicative of sufficient cash flow to fund all of the Company's needs. The Company believes that in order to facilitate a clear understanding of the consolidated historical operating results of the Company, FFO and AFFO should be examined in conjunction with net income as presented elsewhere herein.

Inpatient Rehabilitation Facilities (IRF)

Inpatient rehabilitation facilities are free standing rehabilitation hospitals, or may be units within an acute care hospital, that provide intensive rehabilitation programs to patients.

Long-Term Acute Care Hospitals (LTACH)

Long-term acute care hospitals provide inpatient services for patients with complex medical conditions who require more sensitive care, monitoring or emergency support than that available in most skilled nursing facilities.

Medical Office Building (MOB)

Medical office buildings are buildings occupied by healthcare providers and may be located near hospitals or other facilities where healthcare services are rendered or in close proximity to a population base. Medical office buildings can be leased to physicians, physician practice groups, hospitals, healthcare systems or other healthcare providers.

Metropolitan Statistical Area (MSA or MISA)

MSAs or MISAs are geographical regions with relatively higher population densities at their core and have close economic ties throughout their area. MSAs and MISAs are defined by the Office of Management and Budget.

Net Operating Income (NOI)

NOI is a non-GAAP financial measure that is defined as net income or loss, computed in accordance with GAAP, generated from our total portfolio of properties and other investments before general and administrative expenses, depreciation and amortization expense, gains or loss on the sale of real estate properties or other investments, interest expense, and income tax expense. We believe that NOI provides an accurate measure of operating performance of our operating assets because NOI excludes certain items that are not associated with management of the properties. CHCT's use of the term NOI may not be comparable to that of other real estate companies as they may have different methodologies for computing NOI.

REPORTING DEFINITIONS (continued)

Physician Clinics (PC)

Physician clinics are freestanding healthcare facilities that are primarily devoted to the care of ambulatory patients, can be privately operated or publicly managed and funded, and typically provide primary healthcare needs of populations in local communities utilizing physicians and other healthcare providers.

Specialty Centers (SC)

Specialty centers include various types of centers which may, among others, include oncology centers, dialysis centers, urgent care centers, and blood plasma centers.

Surgical Centers and Hospitals (SCH)

Surgical centers and hospitals may include outpatient surgery centers where surgical procedures not requiring an overnight hospital stay are performed; as well as specialty hospitals that focus on providing care for certain conditions and performing certain procedures, such as cardiovascular and orthopedic surgery.

Total Capitalization

Debt plus stockholders' equity plus accumulated depreciation.

FORWARD-LOOKING STATEMENTS

Certain statements made in this supplemental information package constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (set forth in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act")). In particular, statements pertaining to our capital resources, portfolio performance and results of operations contain forward-looking statements. Likewise, our statements regarding anticipated market conditions are forward-looking statements. You can identify forward-looking statements by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "outlook," "continue," "projects," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans, expectations, or intentions.

Forward-looking statements reflect the views of our management regarding current expectations and projections about future events and are based on currently available information. These forward-looking statements are not guarantees of future performance and involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data, or methods which may be incorrect or imprecise and we may not be able to realize them.

While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes after the date of this supplemental information package, except as required by applicable law. You should not place undue reliance on any forward-looking statements that are based on information currently available to us or the third parties making the forward-looking statements. For a discussion of factors that could impact our future results, performance or transactions, see Part I, Item 1A (Risk Factors) of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 and the Company's other filings with the Securities and Exchange Commission from time to time.

NON-GAAP FINANCIAL MEASURES

This presentation includes EBITDA_{re}, Adjusted EBITDA_{re}, Adjusted EBITDA_{re} Annualized, Net Operating Income (or NOI), Funds From Operations (or FFO), Adjusted Funds From Operations (or AFFO), and AFFO, Adjusted for Acquisitions, which are non-GAAP financial measures. For purposes of the Securities and Exchange Commission's ("SEC") Regulation G, a non-GAAP financial measure is a numerical measure of a company's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable financial measure calculated and presented in accordance with GAAP in the statements of operations, balance sheets or statements of cash flows (or equivalent statements) of the company, or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable financial measure so calculated and presented. As used in this presentation, GAAP refers to generally accepted accounting principles in the United States of America. Our use of the non-GAAP financial measure terms herein may not be comparable to that of other real estate investment trusts. Pursuant to the requirements of Regulation G, we have provided reconciliations of the non-GAAP financial measures to the most directly comparable GAAP financial measures.
