Attractive Market

- Long-term industry growth tailwinds continue to drive demand and increase healthcare expenditures .
- Government and commercial payors are seeking a lower cost site of care to deliver healthcare more efficiently
- Significant opportunities exist to develop and acquire high quality assets at attractive yields

Strategic Vision

- Emphasis on smaller, off-market or lightly marketed transactions
- Identify needs-based, medical office, outpatient and alternate site facilities in targeted submarkets convenient to the population
- Utilize extensive relationships with healthcare providers, intermediaries and property owners to source attractive acquisitions

Disciplined Approach

- Acquisitions must meet rigorous underwriting and return requirements no growth for the sake of growth
- Investment policy requires portfolio diversification by geography, industry segment, and tenant
- A conservative, easy to understand debt structure and balance sheet

Management Alignment

- Executive Management team with over 25 years of healthcare and/or public REIT experience on average
- The Executive Officers have elected to take 50% 100% of compensation in the form of restricted stock with an up to 8-year cliff = vesting - strong alignment of interest with shareholders

Dividend Increases Each Quarter Since Inception

CHCT's proprietary investment model identifies off-market properties and quality operators at attractive cap rates

1. Undervalued Asset Niche

- Acquisition focus on smaller off market or lightly marketed transactions
- Avoid acquiring properties through a competitive bidding process
- Focus on attractive properties from third-party owners or directly with healthcare providers

2. Active Asset Management

- Staggered lease maturities provide opportunity to continuously mark rental rates to market
- Utilize internal asset management team as well as in-market property liaisons to handle tenant needs

3. Portfolio Diversification

- Properties are diversified across tenant, geography, healthcare facility type and industry segment
- Internal investment guidelines limits concentration among these segments

Healthcare Industry Tailwinds

COMMUNITY HEALTHCARE

Aging U.S. Population Drives Healthcare Expenditures

Healthcare's Growing Importance

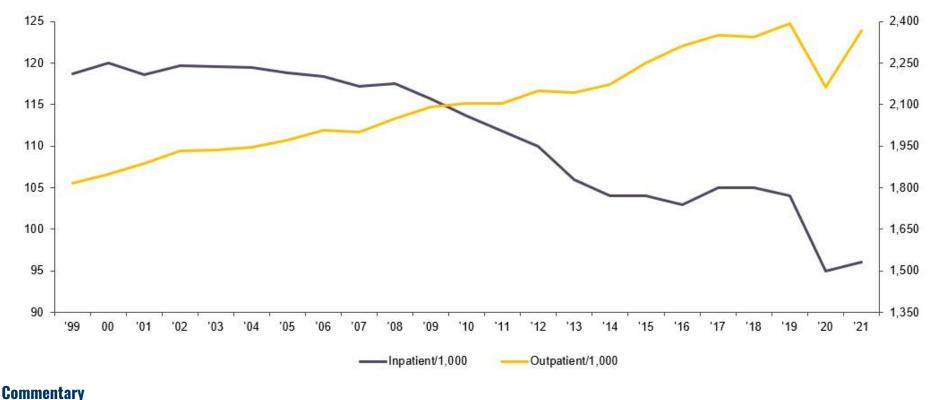

Commentary

- Healthcare spending accounted for 18.3% of US Gross Domestic Product (GDP) in 2021
 - Projected to grow from \$4.3Tn in 2021 to reach \$7.2Tn by 2031
 - Represents a 5.5% average annual growth rate and a projected 19.7% of GDP by 2031
- The U.S. 65+ age group is growing five times faster than the country's population
 - Grew by 34% during the past decade
 - Over 10,000 Baby Boomers turn 65 every day
 - By 2030, there will be over 73 million people in the U.S. aged 65+, representing ~21% of the entire population
- ~95% of adults aged 60+ have one or more chronic conditions
- Older Adults (aged 65+) while only 17% of the population, accounted for approximately 37% of all health care spending in 2020
 - Per person personal health care spending for the 65 and older population was \$22,356 in 2020, over 5 times higher than spending per child (\$4,217) and almost 2.5 times the spending per working-age person (\$9,154)

Technology, Cost, and Consumer Preference Shift Delivery of Care

In-Patient Admissions

- · Procedures traditionally performed in acute care hospitals are increasingly moving to specialty and outpatient facilities
- Studies show that outpatient visits per 1,000 have grown 30.3% from 1999-2021, whereas inpatient admissions per 1,000 have declined 19.3%
- Shift can be linked to advances in clinical science, technology, pain management, improved medical protocols, shifting consumer preferences, limited or inefficient space in existing hospitals, and lower costs in the outpatient environment
- This continuing shift increases the need for additional outpatient facilities and smaller, more specialized hospitals and rehabilitation facilities

Out-Patient Visits
